(b) No such instance has come to notice.

(c) In order to prevent HIV infected inmates deliberately spreading the infeaction to other inmates and jail staff, a number of steps have been taken by the Jail Administration which include the following:

(i) All prisoners admitted in the jails are medically screened to ascertain history of infections and addictions, if any.

(ii) Suspected HIV prisoners are referred to super speciality hospitals for their clinical examination and advice.

(iii) Anti retroviral treatment is provided to the infected prisoners on the advice of the specialist doctors.

(iv) Regular health screening camps are held in the jail to rule out any possibility of spread of infection to others.

(v) Strict vigilance and surveillance on the movements of HIV infected prisoners is kept.
